EDUCATION

UNIVERSITY OF SOUTH CAROLINA

Bachelor of Science in Computer Science

Cumulative GPA: 3.3 | Dean's List

William Edward Dent Jr. Scholarship Recipient

Columbia, SC

May 2026

WORK EXPERIENCE

The Ritedose Corporation

IT Intern

Columbia, SC

May 2025 – Aug 2025

- Configured and deployed 30+ Windows 11 workstations and VoIP phones for new hires, improving onboarding readiness and reducing setup delays.
- Reimaged and restored 50+ legacy laptops using BIOS settings and bootable USB drives, extending device usability and reducing replacement needs.
- Created troubleshooting documentation for 15+ common IT issues, standardizing support steps and improving response consistency.
- Built a facility-wide network asset map documenting 20+ Cisco 2960 switches, improving infrastructure visibility for troubleshooting and future upgrades.

PROJECTS

Retail Revenue Dashboard | SQL, Python, pandas, Power BI, SQLite

May 2026 – Present

- Built a Power BI dashboard analyzing 500,000+ retail transactions across revenue, retention, products, and country sales.
- Cleaned and validated 500,000+ records using Python, pandas, SQL, and SQLite to track revenue, average order value, and repeat customer rate.

Global Internet Adoption Dashboard

April 2026 – May 2026

- Built an interactive R Shiny dashboard analyzing internet adoption and social connection trends across 143+ countries, 7 regions, and 29 years using ggplot2, Plotly, and Excel.
- Cleaned and combined 7,700+ records from 2 datasets, creating filters, summary cards, and interactive visualizations to communicate insights to non-technical users.

Kill the Hero – Capstone Project, Web-Based Trading Card Game (TCG)

Aug 2025 – May 2026

- Developed full-stack gameplay features using React, Golang, PostgreSQL, REST APIs, and WebSockets for a web-based trading card game.
- Implemented AI-controlled bot functionality and used Docker/Docker Compose to support real-time gameplay testing, local development, and team collaboration.

Language Learning App – Group Project, Java & JavaFX

Aug 2024 – Dec 2024

- Built a Java/JavaFX Spanish learning app with flashcards, matching, multiple choice, and fill-in-the-blank activities.
- Implemented text-to-speech narration and JSON-based persistence for user progress and lesson data.

ACTIVITIES

Society of Hispanic Professional Engineers (SHPE)

Jan 2025 – May 2026

- Represented SHPE at SolHack Hackathon at UNC Chapel Hill, collaborating with student developers.

TECHNICAL SKILLS
